About This Game

Golden8bits is a minimalistic game and Fantasy console. Still in development and dont have any final release date yet.

Game State

The game is fully playable, you play as a magic apprentice. Jump and fight pixel monster as you run for all the platform.

Fantasy console

The game it self is just a example of wath you can create with this fantasy console.

All the features right now implemented are:

-
- Create 8x8 pixel tiles.
 - Create 8x8 pixel items like weapons, shields, potions, coins, key, doors.
 - Create characters like player, npc and enemies.
 - Use the canvas editor to animate all your characters frame by frame.
 - Integrate all the element in a level editor.
 - Create and edit levels.
 - Create and edit dialogues for your npc.
 - Compose your own chiptune music.

Features that still missing

- Buttons descriptions on the editor.
- Balance of shield and weapons effect.
- A nice transition between levels.
- All game over modes.
- Tiles with stairs behavior.
- Tiles with bounce behavior.
- Extra layer on level editor for background drawing.
- More palette colors.

Screen

The software run just in windowed mode.

Controll

- Move: wasd
- Jump: k
- action: j
- defense: L
- open item: i
